

# Welcome to

## HARS

### *Historical Aircraft Restoration Society Aviation Museum*

HARS Aviation Museum is a true landmark for aviation enthusiasts.

Located at Shellharbour Airport, YSHL, New South Wales, the museum is home to a vast collection of historic aircraft and aviation artefacts.

Included is the only Super Constellation still flying in the world, along with our flagship aircraft VH OJA Boeing 747-400 series, which made the first non-stop flight from London to Sydney in 1989.

HARS is more than a museum, it's a destination for tourists, it's also a new approach to Conferencing, seating 900 people for Gala Dinners in Hangar 1 surrounded by awe-inspiring aircraft, providing new scope for Team Building Days, outstanding opportunities for the Film Industry with 3,000 square metres of exhibition space in Hangar 1 alone.

AAHOF the Australian Aviation Hall of Fame is located on Level One, Hangar 2. AAHOF pays respect to the Australian Aviators who built the foundations of highly skilled men and women that paved the way and undertook the risks, to make our aviation history sound for future generations.

We are proud to introduce you to the largest collection of vintage aircraft in Australia and most enthusiastic about inviting you to have your next event at HARS Aviation Museum.
